O.A.D. BALDWIN NURSERY

BRIDGMAN, MICHIGAN

To Our Many Friends and Customers -

G. W. R. Baldwin

O. A. D. Baldwin

PLEASE NOTE

Read "Instructions for Ordering" on back of order blank. They save time and avoid errors. All prices F.O.B. Bridgman, Michigan (except where noted).

BALDWIN'S GUARANTEE

For 59 years the Baldwins have backed up this guarantee to the entire satisfaction of their thousands of customers everywhere. We guarantee every plant, tree, shrub or bulb sold by us to be first class, free from injurious disease or insects, and true-to-name. We further guarantee our stock to reach you in good growing condition by express or parcel post and will replace free of charge any that does not, when we are notified within 5 days of receipt of stock. Also we will, on proper proof, replace or refund the purchase price of any stock that proves untrue to name. We are, of course, not liable for more than the purchase price of stock ordered.

All contracts and agreements are made subject to flood, drought, fire, frost, crop failure or other causes beyond our control. Our Michigan Certificate of Inspection is attached to every shipment.

Again it is time to send you this annual catalog of ours and with it our appreciation of your business in past seasons and our hope that we may receive your orders again this spring. This year you will find several new items in both fruits and flowers—all carefully chosen as the best of many new varieties being offered. All the older kinds of proven value are here, too.

A wet spring planting season and dry summer were general over the country and this means that most varieties will be short of the demand the country over. While we have good supplies of all kinds now at the beginning of the season we do know that later on many kinds will be gone, so your early order will help us take care of it in full.

Each year we find that more of our customers select one or several of the specially priced collections you will find throughout the catalog. These are special selections of most everything made up of varieties especially satisfactory for home gardens, and at special low prices.

They will help you to choose well balanced, complete plantings of all kinds of berries, fruits, shrubs and flowers.

As always, we stand ready with our many years of experience in the nursery business to give you the finest quality of stock and at reasonable prices for that good quality. Every effort is made to carefully and properly grow, dig, pack and ship your order so that it will reach you at the right time and in the best planting condition to assure entire satisfaction. We want to be of service not only before but also after you have received your order. If you have any questions, feel free to write us and we will be glad to help you in any way we can.

Sincerely yours,

O. A. D. BALDWIN

RA-PID-GRO The Liquid Plant Food

An easy-to-use, tested and proven plant food containing all the essential elements for a quick start and rapid, healthy growth. Four teaspoonsful of Ra-Pid-Gro powder to each gallon of water makes a liquid fertilizer that is immediately available to plants, trees, shrubs and perennials. For transplanting it shows remarkable results in quick growth when roots are dipped. Regular two week feedings during the growing season maintain vigorous growth. Ra-Pid-Gro is fine for lawns and makes better vegetables. Complete directions with each package. One pound makes 22 gallons or 176 pounds of rich plant food. You will like Ra-Pid-Gro — it is inexpensive, easy to use, and most effective.

Superior Strawberry Plants

Premier

Premier

The Great Commercial Strawberry

PREMIER is one of the most profitable strawberry varieties grown today. It puts a big crop of fine appearing berries on the market first every time and does it in spite of frosts that often kill other varieties. These two facts are PREMIER'S greatest points of superiority as a dependable money-maker. PREMIER eliminates crop failures, and by ripening five days to a week earlier than any other kind, it never fails to command high prices. Always produces its good crops on a wide range of soils and climates throughout the country.

Actually millions more Premier plants have been sold the past few years than any other kind. Premier continues to be widely planted in larger quantities than any other early berry. Growers know that PREMIER is an unfailing money-

maker every year. Consumers demand it. You will need to grow PREMIER—and plenty of them—to be in the berry business profitably.

WHY PREMIER IS BETTER

1. First to ripen.
2. Remarkably frost resistant.
3. Long fruiting season.
4. Unusually large crops.
5. Size above average.
6. Bright, glossy, solid color.
7. Uniform, attractive shape.
8. Firm berry, excellent shipper.
9. Buyers pay a big premium for Premier.

EARLIEST OF ALL— FROST PROOF

If you want to make more money, plant Premier this spring!

Order at once so we can reserve yours. Our plants are guaranteed true-to-name, healthy and vigorous. You can depend on them to make money.

**This Valuable
Planting Guide
FREE!**

To every customer who sends us an order of \$1.50 or more by May 1st, 1948, we will send this Planting Guide FREE. This 20-page "How to Plant" booklet is packed with practical information on planting, pruning, fertilizing, spraying and general care of most every kind of nursery stock. It tells the story in pictures—you cannot go wrong. Regular price: 10c.

It's the Roots that Count

Good root growth on your plants is mighty important because every plant is only as good as its roots. Our many years' experience in growing strawberry plants, the care and "know how" we give to digging, grading and packing assure you of strong, thrifty, exceptionally well-rooted plants—the kind worth planting and the kind that produces better berries.

Senator Dunlap

The Old Reliable Money-Maker

Senator Dunlap (or Dr. Burrill) is probably better known throughout the country than any other strawberry. It has the reputation of producing full crops in a wider range of soil and climate than any other variety. No wonder growers in nearly every state in the Union order more of this old reliable berry every year. Today Senator Dunlap is one of the three or four strawberries that buyers know and ask for throughout the country.

Certain Crops Everywhere

Many canning factories want nothing but Senator Dunlap and contract for thousands of cases yearly. They know it always holds its shape and rich color long after canning—and that the flavor lasts. Uniform berries of glossy, dark red. Last year we sold out of Dunlap early and the demand is equally heavy this year. We have a good supply but urge you to order yours early. *Ripens Mid-Early.*

Senator Dunlap

Robinson

The Modern Main Crop Berry

Originated in this famous Michigan strawberry section and tested here for about 5 years, Robinson was generally sold four years ago and has fully proven its reputation as one of the best strawberry varieties. Robinson has been called a Super Berry and that was saying a lot, but by the way it has proven itself, it was not saying too much. A strong, vigorous grower, it produces an unbelievable number of new plants in most any soil. This insures a big crop and the berries are above average in size because each plant usually has only one fruit stem and has lots of vitality to produce these big berries.

Early Season—Quality—Color—Firmness—Size

Robinson berries are finest flavor, good glossy red color, big in size and firm. All these points make it an ideal berry for marketing nearby or far away at the top price, and they also make a berry that is just what you want in your garden to eat and can.

Planting Genuine Robinson Insures A Profitable Berry Business

Catskill

Clermont **The Brilliant Red Berry**

Last June in picking Clermont and Premier side by side Clermont plainly showed its greater size, heavier yield and more glossy, attractive appearance. That is saying a good deal but it is true. The soil was rather light sandy loam.

Ripens With Premier

Clermont is really worth planting everywhere. Introduced by N. Y. Experiment Station about 12 years ago it has proven outstanding for exceptionally heavy plant growth and big crops of large, smooth, fine colored berries. You can't help but exclaim over the unusually brilliant, beautiful appearance of these berries—and their flavor is as superior as their appearance. Recommended for general northern planting—a hardy, vigorous grower. Firm fruit makes a good market berry. And remember, Clermont berries are unusually fine flavored.

CLERMONT PRICES

25 for	\$1.10	100 for	\$3.15	300 for	\$7.55
50 for	1.85	200 for	5.75	500 for	\$9.95

Clermont

Catskill **Big Midseason Berry**

It is only once in awhile that a new variety proves so satisfactory in every way and so profitable as Catskill has done. Its biggest feature is its enormous crops of big, fine, bright scarlet, green-capped berries. Picking begins just after the early kinds and Catskill berries are of great size and firmness to the last. Plants are unusually strong, hardy, healthy little affected by diseases and will produce their great yields in all soils and seasons. With Premier for early and Catskill for midseason to late, you have a combination for top prices over the best of the strawberry season. We recommend Catskill fully.

Enormous Crops of Fine, Big Berries

For home garden, Catskill is ideal because its fine flavor, rich color and large size are just right for canning and preserving or fresh for table use. New York Experiment Station, the originator, says:—"Catskill is notable for being very large and very productive. Plants are vigorous and free from leaf-spot. Ripens later than Premier and is of better quality as well as being larger. Much more productive than Dorsett and Fairfax."

The New Temple Strawberry

**Fully Red-Stele
Resistant**

**Early, Productive
Amazingly Vigorous**

Wherever red-stele disease is a problem, the new TEMPLE variety is the one to plant because it is fully resistant to this disease. Also, it has proven largely immune to other strawberry troubles. When cold and frost damaged other varieties, there was no injury to TEMPLE. This is the general report of the U. S. D. A., on this new berry and you can see at once how valuable an addition it is to strawberry growing—whether for home or market.

Large, Firm, Bright Red, Sweet

Originated in 1938 by the U. S. Dept. of Agriculture, TEMPLE was selected from many thousand seedlings, because it is fully resistant to red stele and at the same time has the qualities necessary for a successful commercial berry. It is an exceptionally vigorous grower, produces good crops early in the season and the fruit is firm for long distance shipment. Large, smooth, bright red sweet flavored berries with large green caps.

TEMPLE promises to be an exceptionally valuable variety and we have made the price low so that everyone can get a good planting this spring.

TEMPLE PRICES

25 for	\$1.10	100 for	\$3.15	300 for	\$7.55
50 for	1.85	200 for	5.75	500 for	9.95

Grand Champion The 40 Day Fruiter

Tall vigorous plants protect early blossoms from frost and also keep the last berries fresh and bright. Unusually frost resistant; ripens over an unbelievably long season, beginning a few days after Premier—sometimes lasts 40 days. Big crops, good quality, fine flavor and great size. We recommend Grand Champion for your fruit garden.

GRAND CHAMPION PRICES

25 for	\$1.25	100 for	\$3.55	300 for	\$ 7.95
50 for	2.15	200 for	6.25	500 for	10.95

Dorsett

Dorsett The Early Quality Berry

One of the best of all varieties for big regular crops. You can depend on it for good profits every year. Dorsett has been widely planted in all fruit sections and has come through with paying crops every time. We advise you to plant it. You need Dorsett to get the most out of your berries.

Every Desirable Strawberry Feature

Originated by the U. S. Dept. of Agriculture at Washington in 1923, Experiment Stations in Michigan, Illinois, New York, and Washington, D. C., do not hesitate to say that it is superior to Premier in size and quality. Ripens almost as early as Premier, a very vigorous grower making many plants—assuring good crops even in poor seasons and soils. Commercial growers like Dorsett because it makes money. It does so because its firmness, big size, exceptionally fine flavor and wonderfully bright color are just what both wholesale buyers and the housewife want. **We have a stock of fine, genuine Dorsett. Don't wait—there is a big demand.**

DORSETT PRICES

New Everbearing Strawberries

The Latest Introductions

Just as 1948 automobiles are better than those of 1938, so these three new Everbearing Strawberries are greatly improved over those of 10 years ago. Modern scientific plant breeding has given us better flavor, better color, more productive plants and all-around more dependable new varieties. Minnesota 1166 (Evermore), Streamliner and new Superfection are the latest and best introductions generally offered for sale today. Easy to grow in any garden, all self-fertile and full crops are certain.

Minnesota
1166

Minnesota 1166

The University Development

Minnesota 1166 (Evermore) is a heavy-yielding Everbearer. This past season the sturdy plants were loaded with great berries from July until into November. They sold for \$10.00 and \$12.00 for a 24-pint crate at wholesale. Think of it! Back in 1942 when prices were lower, 1,200 plants set in April had made \$500 by November 18th. We think Minnesota 1166 is about the finest and heaviest producing Everbearer we have seen.

Fruiting Season — July to November

Berries are rich, solid, dark red all the way through. Large size, with a rich, sweet, mild flavor. Very good plant maker—better than Mastodon and about like Gem. Originated by the Minnesota Expt. Station, this everbearer is one of the hardiest berries grown.

Easy to Grow in Any Garden

If you plant Minnesota 1166 this spring you can enjoy fresh Strawberries from your own garden this summer. They are delicious, healthful and economical—summertime's most delicious fruit. Plants are in big demand because of its outstanding performance, so order yours early.

MINNESOTA 1166 PRICES

25 for	\$1.50	200 for	\$ 8.50
50 for	2.75	300 for	10.50
100 for	4.75	500 for	16.75
1000 for	\$29.95		

Streamliner

The Sensational Everbearer

STREAMLINER is as new and modern as its name. New because this is only the 4th year of general sale, and modern because it has all these good points we want in an everbearing strawberry today:

- Delicious, very sweet, real strawberry flavor.
- Very hardy, productive plant.
- Rich, radiant, solid red color all the way thru.
- Excellent for canning and freezing.

This year STREAMLINER will be available in limited quantity from coast to coast. You will want to be among the first in your neighborhood to have this fine Everbearer—a really wonderful all around strawberry. Strawberries are one of the finest frozen fruits in home or commercial freezers and this new berry is especially delicious because it is naturally so sweet.

Not a heavy plant maker, but makes enough to produce plenty of fruit. Berries are round in shape and firm in texture—presenting a fine appearance on the market. You will want to get started with STREAMLINER this spring—have a full crop this summer and fall. The supply of plants is still limited. ORDER YOURS EARLY.

STREAMLINER PRICES

25 for	\$1.75	200 for	\$ 9.95
50 for	3.25	300 for	12.50

NEW! SUPERFECTION

All the Name Implies

Introduced by the originator of Gem, Superfection is one of the newest and best everbearing strawberries resulting from modern plant breeding. Offered this year by a few of the leading nurseries of the country. You will want to be the first to have this exceptionally fine everbearer. Superfection bears heavily from June until frost. Large bright red berries with an extra delicious flavor.

SPECIALLY PRICED

25 for	\$2.75	100 for	\$ 8.00

Streamliner

Standard Everbearers

Like Senator Dunlap in June-bearing kinds, Gem and Mastodon are the old dependable, standard standbys among Everbearing Strawberry varieties. Out of the many everbearers that were first introduced, these two have proven their value and dependability in a wide range of soils and climates. Both are self-fertile and produce a full crop when set alone and will not mix with other kinds.

Gem

The Dependable Everbearer

Make Money This Fall With Gem

Gem is the everbearer fruit growers have been looking for, because, unlike all other everbearers, it is an excellent plant maker on good or poor soils and in wet or dry seasons. This fact means that it can be depended on for good crops every year. Here we have a really fine fall berry of good size, fine flavor and unusual firmness.

Productiveness—Flavor—Firmness

- 1. Productiveness.** GEM makes so many more plants than other everbearers that it produces many more berries.
- 2. Flavor.** A true strawberry flavor—something most everbearers don't have.
- 3. Firmness.** Remarkably firm—only everbearer that reaches market in really first class shape.
- 4. Profits.** Because of size, firmness and sure crops—good profits are certain.

MICHIGAN EXP. STATION SAYS:

"Gem is certainly a wonder as far as plant making is concerned and it certainly bears well."

You can plant Gem with full confidence of a full fall crop and good profits.

GEM PRICES

25 for	\$1.35	200 for	\$ 6.75

Mastodon

The Pioneer Favorite Everbearer

Everyone wants and needs a good everbearer that can be depended on to produce plenty of good fruit regularly in the late summer and fall. Mastodon has shown year after year that it will do this in all sections and under most any soil and weather conditions. It is entirely satisfactory for the home garden or commercial patch. Our **Mastodon Plants** are guaranteed true-to-name and will do these things for you. Through years of proper selection and propagation they are superior in vitality and productiveness. The berries are "Mastodons" in size.

Plant plenty Mastodon and have good fruit to sell at top prices this summer and fall. ORDER YOURS TODAY.

Grow Grapes for Profit

NEW FREDONIA A Better Extra Early Black

FREDONIA ripens 10 days before Moore's Early and 3 weeks ahead of Concord. Berries are very large, hang well to the bunch and are firm, juicy and of fine flavor. Skin is thick and tough to make a good shipper. Vine is vigorous and productive with medium size very compact bunches.

Early grapes make the most money and FREDONIA is a fine quality extra early grape far ahead of any other early kind now on the market. The bunches keep their vine-fresh firmness and fine appearance for days after picking. Begin your planting this spring.

CONCORD The Universal Black Grape

Always in good demand—the standard by which all other black grapes are judged. No vineyard or arbor is complete without Concord. Best for market, eating and home use.

It is the main crop for every grower everywhere and produces big crops on any soil every year. After the first expense the cost of up-keep is but little. It is a profitable permanent investment.

Our Concord vines are well rooted, especially adapted to the central west, and guaranteed to reach you in perfect growing condition.

Fredonia

NEW SENECA

Skinless — Golden Yellow — Sugar Sweet

This is the newest of the California-type hardy grapes and one of the finest flavored in any color! The oval-shaped fruit is golden yellow, with firm meat, juicy, and a deliciously sweet flavor—and the skin is edible! The vines produce long, compact, medium size bunches, and are perfectly hardy wherever other northern grapes grow. This is one of the early grapes—ripening here in September. We suggest you get two or three vines this spring.

GOLDEN MUSCAT

California-Type Grapes Now Hardy in the North

Here you have all the delicious, mild, sweet flavor; firm, meaty flesh; wonderfully fragrant aroma; and large size, beautiful, waxy, golden yellow fruit of the true California muscat. These new type vines are hardy and can be grown anywhere our northern grapes are grown. Golden Muscat should be money-makers because of their size, color, high flavor and unusual firmness and good shipping qualities. (Not a California grape.) Begins to ripen about 10 days after Concord.

NIAGARA—(White)

Best White Grape for Every Purpose

The best known and most popular of all white grapes, ranks with Concord in heavy bearing, size and quality. Medium compact, large bunches; berries mostly round, of greenish-white color; very juicy and of excellent flavor, skin is thin but tough and does not crack, making it a fine long-distance shipper. Hardy, vigorous grower.

NEW CACO—(Red)

Caco is A-1 in every respect. Hardy, quick bearing, produces every year; fruit beautiful, unusually large size, clear amber color and best of all has a flavor of such sweetness it is a superior table grape. Always in demand at grape markets with extra prices. Vines just as easy to grow as any other.

DELAWARE—(Red) Long called the standard of excellence of all grapes as a table delicacy. Bunch small, compact; berries small with thin skin and of unusually sweet flavor. Ripens with Concord. Hardy. It is impossible to tell you how really delicious these little red grapes are.

NEW VAN BUREN

Extra Early Black

An extremely early grape of superior quality, similar in flavor to the well-known delicious Concord. This variety was introduced by the N. Y. Experimental Station and is one of the best early blue grapes yet produced. Ripens in mid-August, even earlier than Fredonia. The vines are extremely hardy and produce an abundance of good size, sweetly delicious fruit. Thoroughly tested in grape growing sections and highly recommended for commercial planting.

PORTLAND—(White) Fine Extra Early Grape.

Similar to Niagara in its large size bunch and full oval berries, Portland ripens three weeks earlier. Production is heavy, young vines bear early and bear good crops every year. Berries are of good size, fine and sweet in flavor. Vines entirely hardy. Introduced by N. Y. Expt. Sta. and is proving an excellent profitable grape because it ripens so early and its quality is so good.

RHUBARB for Home or Market

Rhubarb should be in every garden because it is delicious and healthful. Everyone enjoys it both fresh and canned. So easy to grow and there is always space around the edge of the garden for enough roots to provide all you need. There is good money in growing rhubarb for the fresh or canning market. More and more people are finding it a source of extra income, even with small plantings. Why not plant this spring?

MacDonald Crimson →

This new red variety is the best of all. Yields heavily from spring right through to late summer because it never goes to seed. Will last for years. Produces unusually large attractive crimson stalks and the good thing is that they are very tender and juicy (skin and all); not tough or stringy as most large stalks are. If everyone knew this grand new red rhubarb no other kind would be planted. It is so much better in every way—large size, rich red color, greater production, and best of all a deliciously sweet flavor. Superior for canning—each piece pink, tender, not stringy, the syrup rich in color, and all a wonderfully mild flavor. Ours are all strong division roots ready to produce quickly. Planted this spring they will make fine large stalks for your use this summer and fall and of course again in the usual early spring season. Excellent for winter forcing.

PRICES—Each 59c; 3 for \$1.65; 6 for \$2.95; 12 for \$5.90; 25 for \$9.95

← Canada Red

This is a new red rhubarb that is in top place for appetizing red color and deliciously mild flavor. It is seedless and therefore everbearing. A vigorous, hardy grower and its long, tender stalks are rich red, right through. Of milder flavor than most kinds; requires less sugar. Many consider it the best rhubarb yet introduced. Plant 2 or 3 roots and enjoy it. Grows easily in any good garden soil.

Price: Each 75c; 3 for \$2.00; 6 for \$3.75; 12 for \$7.25; 25 for \$12.50.

VICTORIA CLUMPS

Large 2-year-olds, ready to produce this summer. Just the thing to get Rhubarb started quickly in your garden.

Prices—Each 39c; 3 for \$1.10; 6 for \$1.85; 12 for \$3.45

HORSE RADISH

Big Crown Plants That Produce Quickly

How many times have you wanted Horseradish roots or leaves for your canning and kitchen use! It is easy to grow and a few of these roots multiply rapidly and will make all you need. Plant in any out-of-the-way corner. A fresh, home grown supply is much better than what you buy. The cost is little and once started Horseradish lasts for years.

Prices: Big Crowns—3 for 43c; 6 for 75c; 12 for \$1.25; 25 for \$2.15.

Myatt's Victoria

Victoria is the preferred market variety and is generally planted. Good for winter forcing, too, when prices are highest. Attractive pink stalk, delicious mild flavor. This pink stalk, tender variety is preferred and brings best prices. Our stock is carefully grown from guaranteed tested seed. Transplants easily; produces abundantly.

1-yr., 1/2 to 1 Inch—Each 12c; 6 for 55c; 12 for \$1.00; 25 for \$1.60; 50 for \$2.95; 100 for \$4.95

Asparagus

Asparagus is easy to grow and you can make big profits from a small space. 50 to 150 plants will supply this delicious food for the family. A bed lasts for 10 to 15 years, and you can depend on heavy regular crops from our roots. It is most important that you get strong, healthy true-to-name plants. We grow them by the thousands from guaranteed tested seed on special soil to give you the best planting stock.

Mary Washington ➔

Developed and recommended by U. S. Dept. of Agriculture. Heavy yielding, pedigree strain immune to rust; grows rapidly and produces uniformly tender shoots of excellent table quality.

Now that canning companies have found how to can asparagus and retain all its delicious flavor and healthful food qualities they are contracting for greater supplies every year. At the same time there is a rapidly increasing demand from grocery stores and commission merchants for fresh asparagus during the summer season.

\$4,000.00 from 4 acres—That is what one local grower made from his field of asparagus, and shows what can be done with the present day asparagus market. 5,000 roots plant an acre. Here the cutting season begins in May, before any other cash crop.

There is a steady demand with average prices of 7 to 10 cents per pound. You can make money growing asparagus now!

New! Paradise Asparagus

Bears A Big Crop in Only One Year

That tells the story of this remarkable new Asparagus. It comes into full production quickly—no need to wait 2 or 3 years to begin cutting. PARADISE was bred and developed to do just that.

Paradise Makes Profits Quicker

The rapidly increasing demand for both its plants and stalks as Paradise becomes more widely grown, shows that here is a popular asparagus variety. It is rust resistant and produces great, wonderful appearing stalks of delicious flavor. Paradise is a most excellent asparagus for home use and profitable mar-

ket sale. We are glad to offer this new, early producing, deliciously flavored variety at these low prices:

Black Raspberries make money

Black Raspberries have regularly been bringing better than average returns every year. Fruit canneries always contract for a good part of the crop and this insures better prices all around. These are proven, profitable varieties. Michigan grown, double inspected raspberry plants are recognized throughout the country as the best. Our soil is especially adapted to produce sturdy, well rooted quick growing plants. Such first class plants, disease-free, are necessary for satisfactory crops of berries.

Cumberland The Leading Commercial Variety

Clear money above all expense is what you want and you can depend on our heavy producing, vigorous plants for it. Cumberland is still the leading berry in the plantings of commercial fruit growers everywhere. Government Experiment stations have found none that promise to be a better money-maker.

Low Prices for Dependable Certified Plants

If you grow Black Raspberries at all you need this great mid-season berry for a complete planting; it is hardy, healthy and produces its big paying crops of fine berries in every fruit growing section. Plants vigorous and very productive; thrive everywhere. Berries large, firm, jet black with a delicious flavor. Wonderful long distance shippers—attractive appearance—always command good prices. Guaranteed to please you.

Bristol

For The Home Garden

This is a top quality blackcap that is widely adapted in all raspberry sections. One of the finest for home gardens everywhere. Bears heavy crops of large, glossy, fine-appearing berries. Its resistance to usual raspberry diseases means a long lived planting. Bristol is well worth much wider planting for both home and commercial use. We have a reasonably good supply of first class plants but you should order early.

Price — 12 for \$1.10; 25 for \$2.00; 50 for \$3.45; 100 for \$6.25

Bristol

Morrison

The Big Profitable Late Berry

Here is a really better late Black Raspberry for both home and market use. Ripens about one week after Cumberland. Morrison has now been widely tested from Pennsylvania to Michigan, and has proven head and shoulders above other varieties in most every way. Commercial growers say: "Largest blackcap I have seen." "Practically disease free." "Larger and firmer than Cumberland. Does not crumble." "Holds its size to the last of the picking season." "For two years it has brought more than other varieties on the Pittsburgh market." One third larger than any other blackcap.

The big bushes are exceptionally vigorous, hardy growers; long lived (some producing well after 12 years), and are practically disease free. Morrison berries are high flavor, very firm, juicy, not so seedy, and the size averages almost an inch across. Every one is a brilliant, glossy black. This bright appearance holds up longer in grocery and market, outyield other varieties and **MAKE MORE MONEY FOR THE GROWER!**

Logan

Most Widely Planted Early Blackcap

This early variety has all the good points other early berries have lacked. Berries are good size, do not crumble (unusually firm), do not dry up, hold a glossy black color and have a deliciously sweet flavor. Logan is a fine home garden berry.

Bears heavily, maturing most of its crop before Cumberland begins, and so gets the best of the early high prices. Canners like its rich flavor and uniform berries.

Logan is recommended by Michigan and Ohio Experiment Stations and is an entirely satisfactory commercial berry in the great fruit sections of these states. Remarkably free from and resistant to disease; a strong grower, throwing out plenty of fruit canes.

We recommend Logan for its earliness, its excellent quality, its firmness and color for market. Plant Logan and you will be well repaid. Our price is low for this fine Early Raspberry.

Sodus Purple Raspberry

The Best for Jam and Jelly

If you have not eaten purple raspberries both fresh and canned, you have a delightful experience coming, for these berries have a color, aroma and fine flavor that call forth that "more" taste. They are something deliciously different. Its distinctive flavor and great size are what everyone wants for canning and pies.

This better purple cap is a money-maker because of its great size, attractive color, extra firmness and exceptionally heavy crops. Giant, bright purple berries, do not crumble, borne in great clusters on every branch. Flavor good—a blending of red and black raspberry.

SODUS is a rapid grower with great strong canes to carry its big load of fine fruit. So far it has shown almost complete freedom from mosaic; plant safely anywhere. Had no winter damage when others were frozen. Stands dry weather unusually well.

Sodus Has Size, Color and Quality

Sodus is the best of all purple sorts generally planted today. A good sized, fine flavored purple raspberry with attractive appearance will make money. SODUS is such a berry and deserves extensive planting for commercial use. Plant Sodus for a really good purple cap.

New Thornless Boysenberry

Thornless
Boysenberry

Mammoth Size - No Thorns

Ripens 10 Days to 2 Weeks Earlier

Think of the pleasure of picking a berry with the great size, fine appearance and deliciously different flavor of regular thorny Boysenberries, that is entirely free from thorns, too. That is what you have with the new Thornless strain. The only difference we can see is that the berries are slightly smaller than the regular Boysenberry. Thornless brings you ripe fruit about two weeks earlier, too.

Fine for Jams, Jellies, Pies

Boysenberry is a cross of Blackberry, Raspberry and Loganberry. Berries dark reddish-purple, wine-colored, juicy with a high flavor not found in other bush fruit. Unbeaten for jellies, jams, pies. A dozen plants give you all you can use and some to sell.

Easy to grow and quick to bear a big crop, with beautiful berries decidedly different in flavor—you just cannot beat these "pleasant-to-pick" Thornless Boysenberries.

Standard Boysenberry

\$800 to \$1,500 Income Per Acre

55 of the largest berries fill a quart basket. Average size, 1 inch diameter, 1½ to 2 inches long—largest bush or vine berry known. Bushes are hardy (has stood 19 degrees below zero). Its exceptionally rapid growth, heavy crops, immense size and deliciously different flavor will amaze you. Grows like a dewberry and is as easy to raise. Ripens with them and fruits over a longer season.

Enormous Spicy Purple Berries

Boysenberry is a real money-maker because of its outstanding features of immense size, exceptional productiveness, unusual flavor and fine appearance—it is impossible to realize how far superior in all of these qualities it is until you have seen it. Market growers are greatly increasing their Boysenberry plantings because these larger, better berries are proving big money-makers for them.

Thorny Boysenberry

Latham Red Raspberry

The Most Profitable Late Red

Latham has definitely proved to be the best red raspberry money-maker in every fruit section of the country. Each year for the past five years we sold more Latham plants than all other red varieties put together.

For general planting in all sections, Latham is the best because this hardy, vigorous grower can be depended upon for big annual crops of finest looking berries. Fruit buyers on every market pay a premium for Latham's bright color, firmness and long keeping quality. These things and its most delicious flavor make it equally desirable for home gardens.

Hardy, Productive, Dependable

Hardy and very productive—far out-yielding older kinds, it ripens from mid-season to late. We wish we could convince you what a truly fine berry

LATHAM is in every way. If you have grown it you already know. Berries are all above average size, bright red, and make the most attractive appearance of any red variety; the flavor is of the finest. You will make no mistake in planting all you can.

Latham Is Still the Best Fruit Everywhere for Profit

FOR CANNING—Jams and Jellies—Unusually rich color that does not fade, and what a wonderfully delicious, true, fresh raspberry flavor! The ideal berry for canning uses.

GOVERNMENT EXPERIMENT STATIONS—Recent reports from leading fruit states say that Latham is the best and most profitable berry for its season and highly recommend it for planting.

Taylor The Best Giant Late Red

Berries larger than any other, except Newburgh, uniform and pointed in shape, very firm (will not crumble when picking) bright snappy red color—all qualities that make TAYLOR an ideal shipper, arriving in best appearance to bring highest prices. Its large size holds up well over a very long season. Its deliciously sweet flavor and thick juicy flesh make it just right for eating, canning and preserving.

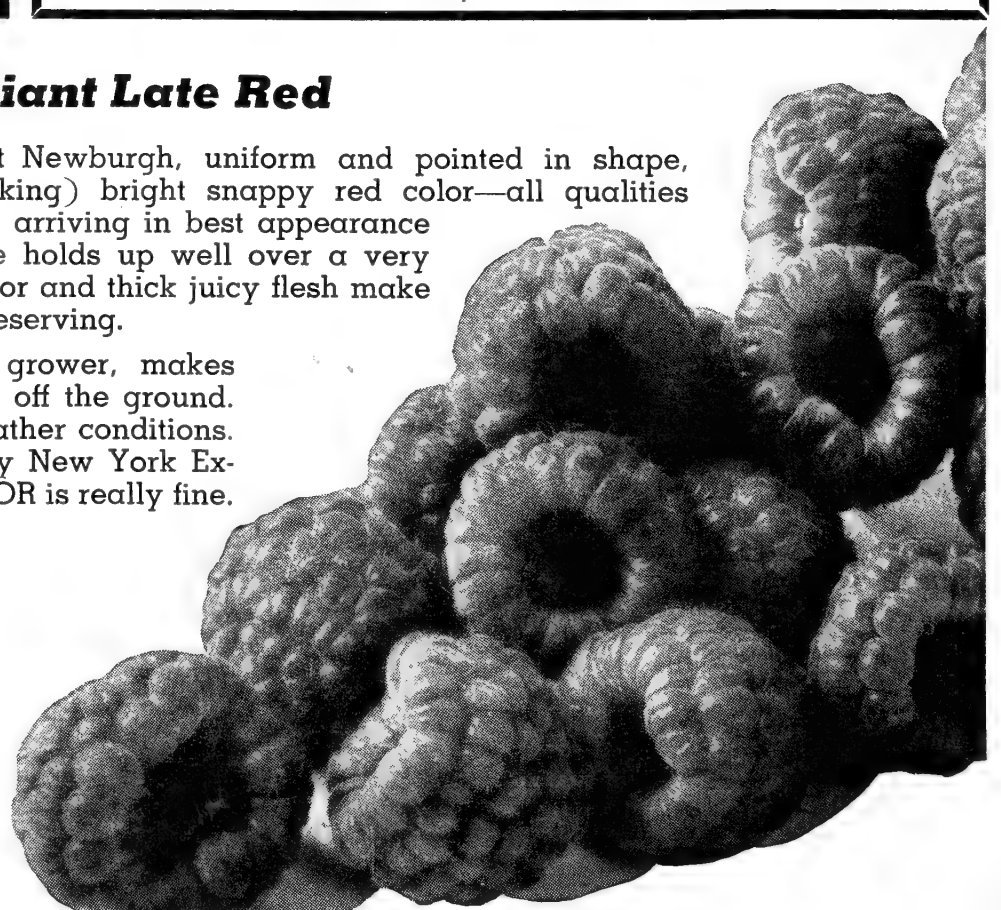

An unusually upright strong-caned grower, makes picking easy and keeps the fruit well off the ground. Exceptionally hardy under severe weather conditions. Crops unusually heavy. Originated by New York Experiment Station; one of its best. TAYLOR is really fine.

The New Sunrise Red Raspberry

Extra Early Extra Hardy Extra Quality

SUNRISE comes to you fully tested and proven as a better flavored, better quality berry for home use and an earlier ripening, hardier growing, more profitable variety for market. Here is its story—judge for yourself.

1. *Originated by U. S. Dept. of Agri. in 1923; carefully tested by them since and they say—"Of most importance from the standpoint of the practical grower perhaps, are the hardiness and resistance to disease of the plants, the earliness and larger size of berry as compared with St. Regis and the better texture and quality as compared with Latham."*
2. *Earliness*—N. J. Expt. Station says: "The Special value of SUNRISE is its earliness. This year it was ready for first picking June 8, Chief on June 19, Latham June 23. In most cases SUNRISE will continue to produce some fruit even after Latham is practically finished."
3. *Hardiness*—U. S. D. A. says: "SUNRISE has shown resistance to low temperatures in mid winter at New Jersey with practically no injury, whereas Latham and some other varieties were severely injured."
4. *Flavor and Quality*—U. S. D. A. says: "More attractive than Latham—color is bright, turns dark red on ripening, berries pick easily. They are firm, fine textured, juicy, non-crumblly, mild in flavor, better quality."

From these statements you can see what a superior variety in every way SUNRISE is. Don't wait longer to plant this new fine berry.

New
Sunrise

Washington A fine New Red Raspberry

Another good new red raspberry has long been needed to replace older kinds and in many respects Washington gives good promise. The berries are of very good quality and flavor—much better than Latham—large and attractive in appearance. Well suited to canning, preserving and quick freezing. It is an abundant bearer.

Washington was introduced by the Washington State Expt. Station nine years ago and is recommended as a valuable commercial variety in that section and the central west. In the Michigan section it should perhaps be further tried out for commercial value. But for the garden and all home uses its heavy bearing, large size and most excellent flavor make it most desirable.

This new variety has not been generally available before and we are fortunate in having a reasonably good supply of genuine Washington for you. Order early.

Chief

Chief EARLY RED RASPBERRY

Chief is replacing King and other early kinds because it is better. Early Chief is paying Michigan growers well. Berries are of good size and color, firm, and reach the market in good shape for early-season high prices. Perfectly hardy, a vigorous grower and heavy producer—Chief will make good anywhere.

Early Red Raspberry for Home or Market

Chief plants received from us are guaranteed true-to-name and No. 1 in every respect. Early red raspberries always pay well and with Chief you can depend on some extra profits. We think a lot of Chief and we recommend it to you as a money-making early red raspberry.

Indian Summer

New Everbearing RED RASPBERRY

Here is a distinctly new type of everbearer, unlike any older kind. "Marvelous" justly describes Indian Summer. The quantity, size and quality of the berries it produces in September, October and November are truly marvelous because they are so far superior to any other everbearer. With such a berry you can make worth-while profits from the high prices always paid for off-season fruit. Makes a good early crop in the regular season.

The Best Everbearing Red

Berries are uniform, rich red, thimble-shaped, large and juicy; flavor a true, tart, delicious raspberry. A thrifty grower and heavy producer. You have never seen any fall berries as good in every way as INDIAN SUMMER. **Be sure to plant this spring.**

St. Regis Red Everbearing

This old and well known everbearer is planted by many growers. Bushes are good size, upright, vigorous and remarkably free from disease. Produces a full spring crop as well.

Blackberries and Dewberries

Early Alfred The Best Early Blackberry

Alfred is best for every use. We unreservedly recommend it to our customers as thoroughly satisfactory and the equal of any blackberry early or late when it comes to producing big crops and paying worth-while profits. Think of a bush full of tremendously big blackberries from 1½ to 1¾ inches long, practically free from seeds, coreless and with a thick pulp fairly bursting with delicious juice. That's Alfred!

Paying Crops of Big, Juicy, Delicious Berries

Alfred ripens a full 10 days ahead of Eldorado and continues all through the Eldorado season. Alfred berries are bigger, brighter colored, of better flavor and bring top prices right along. Once you grow Alfred you won't be satisfied with any other berry—fine, large berries that carry well to market.

The plant is such a vigorous, healthy grower that it produces a good crop the first year after planting. Withstands cold that kills less hardy varieties.

Alfred Prices 1 yr. No. 1

12 for \$1.20	50 for \$3.45	200 for \$10.85

Eldorado Blackberry Satisfactory Everywhere—Always Dependable

Every good quality possessed by other blackberries is emphasized in ELDORADO. Its exclusive advantages are: Absolute freedom from Orange Rust; a very heavy bearer with great, jet black berries.

Plants are so strong and vigorous they survive severest Northern Winter without mulching; Eldorado will produce paying crops in climates and locations where less hardy kinds will be frozen. A splendid shipper, because the berries are so firm. Plant Eldorado generously. They are making big money for other growers and will do the same for you.

Lucretia

Something New—No Thorns GARDENIA

A Thornless Dewberry

A genuine dewberry — rich, sweet and luscious in flavor as they always are — but one that has no thorns. What is more, Gardenia does not produce thorny shoots or plants when it grows older as some so-called thornless plants do. Very vigorous, healthy and hardy plants that have the heavy-bearing

dewberry habit. Gardenia has been fully tested and is ready to win full approval in your garden. A dozen vines will make a lot of berries.

Price 1 yr. No. 1 — 3 for **65c**; 6 for **95c**; 12 for **\$1.50**; 25 for **\$2.40**; 50 for **\$4.25**; 100 for **\$7.50**.

Plant Apple Trees—They

Ours are guaranteed true-to-name, well rooted, quick-growing trees. These are high quality, proven value varieties, best adapted to eastern, middle-western and northern soils and climates. There is real pleasure and a big saving in having two or three trees of each fruit right in your garden. As a commercial proposition, apples are always in profitable demand.

APPLE TREE PRICES

Experienced fruit growers recommend 9/16 in., 4 to 5 ft. trees as best size to plant. (All Varieties on this page.)

2-yr., 9/16 in.,	Each	3	10	25	100
4-5 ft.		\$1.10	\$3.10	\$9.45	\$22.00 \$75.00

Jonathan—(A) Late Fall. Sold in every store. Glossy red; fine grained, juicy flesh, excellent flavor. Medium to large size. Unusual keeper (to February) makes it a most profitable commercial apple. Quick to bear and easily grown in practically every fruit section. Jonathan is first choice in many homes.

Wealthy—Fall. Heavy yearly bearer. Hardy, long lived. Attractive, brilliant, red striped; superior quality, wine-like flavor. An all-round apple for eating, cooking, cider and market.

Northern Spy—(B) Winter. The old, well known favorite. Delicious juicy flavor; excellent for eating and cooking. Brilliant streaked red color. Always in demand; good prices; long keeper.

Baldwin—Winter. This widely known variety averages about medium size, rich dark red, juicy, fine flavor. Good for market and home use. One of the first two or three varieties in the great Michigan and New York apple sections.

Stayman's Winesap—(C) Late Winter. Best Winesap. Extra large, bright red, crisp, juicy with a wonderful zestful flavor. Stayman easily leads all other Winesaps. Heavy bearers and big money-makers everywhere.

Red Astrachan—Best Early Summer. Well known old sort. Large round, crimson apple; rich juicy, excellent eating and cooking early apple, vigorous and productive tree.

Yellow Delicious—(D) Late Fall. This beautiful apple has the distinctive shape and big size of Red Delicious with an added deliciousness and mildness of flavor that is unsurpassed by any apple. Flesh solid, crisp and full of juice; its rich golden-yellow, firm smooth skin gives it a luscious appearance. This highest quality apple is always in demand and brings top prices.

Red Delicious—(E) Double Red. Winter. Known world over. Brilliant dark red, shading to yellow at blossom end. Large to very large; white tender juicy flesh. Wonderfully rich sub-acid flavor—truly delicious. Ships without bruising, makes a wonderful appearance, commanding top prices. Comes into bearing early.

Cortland—Winter. Many customers have asked us for this newer apple and we are glad to supply them. Cortland is an excellent, early bearing, long keeping McIntosh type. Large fruit streaked with bright red and yellow. One of the best commercial sorts.

Last a Lifetime

Anoka—Have Apples the Second Year. Bears on one year old growth and bears annually. Ripens in August; very heavy bearer; fruit red stripes over yellow; fine cooking quality, short keeper. Does best in central and northern sections. **Priced Page 20.**

McIntosh—Winter. A Money-maker Today. Juicy snow apple—white, crisp flesh; beautiful solid crimson color. Excellent quality—winelike, true apple flavor. Good annual bearer. Rapidly increasing popularity among consumers everywhere makes good prices certain. One of the most profitable apples. **Priced Page 20.**

Yellow Transparent—Early Fall. Has proven both popular and profitable. Fruit large yellow with crisp sub-acid flavor. Heavy annual bearer; well known everywhere. **Priced Page 20.**

Grimes Golden— WINTER. Favorite mild eating apple. Excellent keeper, uniform shape, typical dull gold color. Hardy productive tree. Carefully selected and grafted trees insure satisfaction with this fine apple. **Priced Page 20.**

Maiden Blush— EARLY FALL. Standard market variety. Fine, hardy, long lived, annual bearing tree. Bears young. Beautiful lemon-yellow fruit with crimson cheek. Fine flavored; valued for home use. **Priced Page 20.**

Rome Beauty— LATE WINTER. Excellent home use and baking apple. Deep red color over yellow—a handsome apple. Thick, firm skin stands handling remarkably well, makes it one of the best late winter keepers. A leading Ohio commercial variety. Tree bears very young. **Priced Page 20.**

Anoka Apple

Dolgo Crab Apples

DWARF APPLE TREES

At Reasonable Prices

Dwarf apple trees are highly prized for the small garden where space is limited. They make plenty of fruit possible as these sturdy little trees bear a big crop way out of proportion to their size.

Full Size Fruit from Dwarf Trees

Well branched, well rooted, 2 to 3 foot, 2-year trees ready to make quick growth and good crops of full size fruit. Plant about 10 feet apart.

DOLGO CRAB

Striking, Dazzling Red, New Crab-apple. Unbelievable heavy bearer; free from blight. Jells quickly even when fully ripe. Good to eat fresh. Beautiful hardy trees, thrive everywhere. Called the "Perfect Crab." Dolgo is replacing older varieties. Its lustrous green leaves and mass of pink blossoms make it ideal for lawn planting.

PRICE: 9/16 in., Each \$1.25; 3 for \$3.55; 10 for \$10.95.

QUINTUPLET APPLE TREE

5 Kinds of Apples on One Tree!

This one tree gives you delicious apples from early season to late winter. Five fine varieties are budded on one tree, selected to cover the apple season from late summer through fall and winter varieties. Just right for your garden if you don't have room for five trees. Plant one or two of these unusual trees and have five varieties of apples.

PRICES: 2 yr., 9/16 to 11/16 in., 4 ft. and up, Each, \$2.50; 2 for \$4.75; 3 for \$6.50.

Hale Haven

Choice Peaches

Hale Haven—Mid-August. Wonderful new peach with great size and beautiful color of J. H. Hale and earliness of South Haven. A better peach of richest flavor; yellow flesh firm and juicy. Better shipper than South Haven; always freestone; bears every year. Hale Haven is one of the best and its sale shows a far greater increase than any other kind. Always brings more money. Ripens 15 to 20 days before Elberta and is second only to that grand variety in popularity and profits.

South Haven—August, the Profitable Early Peach. Originated in the famous Michigan Peach Belt, South Haven, has proven one of the best varieties in every peach growing section. Experiment Stations recommend it when an earlier peach than Elberta is desired. Withstands severe winter cold. As fine a peach as the standard Elberta, firm, highly colored — and ripens 12 to 18 days earlier.

J. H. Hale—Late August. First in Size, Color, Quality. Yellow, thick skin, colors to a rosy tint. Deep yellow, fine grained very firm flesh — delicious flavor. A beautiful peach, fresh or canned. In size, color and quality, no peach compares with Hale. Always brings \$1.00 to \$1.50 more per bushel.

Red Haven— RIPENS 30 DAYS BEFORE ELBERTA. This new Michigan Expt. Station peach is another most profitable early commercial variety. Outstanding in shipping qualities—it is of good size, red color, firmness, dependable crops. Its size, fine sweet flavor, yellow fine-grained flesh and freestone pit make it equally excellent for home use. Redhaven is usually completely covered with brilliant red. Very heavy producers — thinning often needed. Fruit buds harder than Elberta. You should have Redhaven for a fine extra early peach.

Red Haven

Golden Jubilee — EARLY AUGUST. Large, very attractive, orange-yellow fruits, with pink cheeks; always freestone; Elberta type but milder in flavor. Popular for home canning. Its size, color and quality bring high prices on local markets.

Elberta—Sept. 1, Planted by Thousands. Standard commercial peach. Plant Elberta and be sure of a crop. Large to extra large. Freestone. Golden flesh, red at the pit, firm, juicy. Has no equal as a prolific bearer and shipper. Best known peach.

Champion—Early August. Best White Freestone. Many prefer this white peach. Full of rich juice, finest flavor. Large red cheek. Heavy bearer; very hardy.

NEW HARDEE PEACH

Full Crop After 18° Below Zero

This record is reported by Ohio Experiment Station. It means sure crops when even Elberta fails, and that means soaring peach prices. HARDEE is a drought-resisting, steady bearing, sure-cropping tree. Yellow freestone. Ripens with Elberta; rich yellow with red cheek. Successful peach crops can now be grown in many sections that were too cold before. Safeguard your future crops. **Order Yours at Once.**

New Hardee Peach

DeLuxe Pear Trees

Bartlett—SUMMER. Known for quality.

One of the best known and popular varieties for both commercial and home orchard planting. Golden color with red streak, mellow and indescribably delicious both fresh and canned. Heavy bearer.

Kieffer- FALL. Best pear for large commercial planting, because of its sure crop, heavy yield and excellent shipping qualities. Kieffer has been proven unexcelled for commercial canning. A local cannery used over 200,000 bushels in one season.

Douglas—Bears In 2 Years. Why wait 5 or 6 years for a crop of pears when the NEW DOUGLAS very often bears the second year? Young trees have been known to bear in the nursery row. Heavy bearer of good quality fruit. Very hardy, producing fruit from a second set of blossoms, when the first was frozen. Very blight resistant. Juicy, sweet, delicious.

Seckel—The old favorite "Sugar Pear".

EARLY FALL. Always in market demand and equally valuable for home use. Medium sized pear; ripens late September. Delicious flavor and quality—sweet as candy. Every garden should have a Seckel.

Clapp's Favorite—SUMMER. Ripens 7

to 10 days before Bartlett and like that famous pear, is of excellent flavor, large size and fine quality, for home use. Red blush over yellowish-green skin; good shipper; early high prices. Vigorous, productive tree.

FAMOUS SEEDLESS PEAR

Discovered by Mr. Cope who claims it to be practically without seeds or core when planted alone. (planted near other pears, cross pollination may produce some seeds.) Ripen 10 days after Bartlett. Has Bartlett's fine color, good size, and wonderful flavor. Think of eating right through a delicious pear! Easy to prepare salads; for canning, just peel and can whole. Begins bearing in 3 years with a full crop in 5. Trees are rapid growing, hardy and unusually free from blight; bears heavily. Not a novelty but a profitable fruit. Keeps in common storage, ships well.

Each **\$1.60**; 3 for **\$4.50**;
10 for **\$14.50**

Bosc—LATE FALL. The ideal long-keeping pear. Fruit beautiful golden russet, very large size. Flesh is white, juicy and a delicious, delicate pear flavor—a real winter time treat. Tree is vigorous and hardy.

DWARF PEAR TREES

Dwarf fruit trees are just the thing to plant for plenty of fruit where space is limited. These little, sturdy, quick growing, early bearing trees produce full size fruits just as fine in every way as those grown on standard size trees. Plant about 10 feet apart.

Dwarf fruit trees fit in nicely in an ornamental planting, too. We have three choice varieties in dwarf stock.

Montmorency—Sour. Known and grown everywhere. Ripens late in June and is best sour cherry for market. Makes delicious pies; fine for canning. Fruit larger than Richmond; bright red, acid flavor. **Grow Montmorency for the Canning Market.**

Early Richmond—Sour. One of the most popular sour cherries, unexcelled for cooking. Dark red, tart, and juicy. Hardy trees uninjured by cold. Big crops.

Black Tartarian—Sweet. Best known black sweet. Extensively planted and prolific. Regular bearer of big, black juicy, sweet fruit. Hardy, vigorous. Best and most profitable black sweet cherry—for market and home.

Black Tartarian

Schmidt's Bigarreau—Sweet. Newer sort. Unusually hardy. One of the best late sorts, especially in Northern sections. Largest size, firm fruit; deep red to mahogany. Brings best prices.

New Fall Bearing Sweet AUGUST SUPREME

This true fall-bearing sweet cherry ripens in mid-August to continue the season of this delicious fruit into fall. Dark red, medium large fruits, red to the pit. Fine flavor for eating fresh or canned. The tree is a vigorous grower, producing the usual good sweet cherry crops. Plant Patent No. 164. Ripening when no other cherry varieties are on the market, this new cherry can well be commercially profitable. Why not plant an August Supreme for fall cherries — it bears young.

Price—7/16 in., 3-4 ft., Each \$1.95; 3 for \$5.55; 6 for \$10.50.

August Supreme

Quince

ORANGE—Best of All Quince. Regular annual bearer of fine, large, rich yellow, aromatic fruit. Makes delicious jam and quince "honey". Trees hardy in most all sections. Begin bearing very young and produce large crops.

Price: 1 yr. 7/16 in., 3-4 ft., Each \$1.80; 2 for \$3.45.

Hansen Bush Cherry

(See Page 28)

Fruit as delicious as sweet cherries; makes excellent Jell and Jam.

Finest Hardy Plums

Stanley Prune— Recommended by New York Expt. Station as the best new early plum—early August, 10 days before German Prune. Stanley is the finest prune type plum; fruit largest size, dark bluish purple, freestone, fine grained, tender, juicy and sweet. Firm and does not crack. Excellent quality for cooking or eating. Produces heavy full crop every year; often bears in 3 years.

Italian Prune— **Best for Canning and Preserving.** Medium size dark purple plum. Firm, sweet, the favorite everywhere for canning. Tree easy to grow, remarkably free from disease, very productive. Good keeper, excellent shipper. Ripens in September.

Yellow Egg— **Best Yellow Plum. Extra large fruit.** Clear yellow egg shaped. Sugar-sweet, rich, juicy and melting. Fine for table or canning use. Hardy productive tree. Ripens August.

Green Gage— **This Round, Greenish-Yellow** plum has about the sweetest flavor of all. Every housewife wants Green Gage for canning and preserving. Medium size, full of juice, unusually heavy bearer. Always sells well. Late September.

Burbank— **Delicious Table Plum.** Hardy Japanese variety free from black knot. Deep red color, unusually delicious flavor. Keeps three weeks after ripening. Ripens August 15 to Sept. 1.

Superior— New fine looking, sweet flavored, wine-red plum. Favored for colder plum growing sections. Exceptionally large fruit with small free-stone pit. A good all-purpose plum, and more are being planted.

Blue Damson— This is the little, blue, solid plum that is so highly prized by every housewife as the finest plum for preserving. Exceptionally vigorous, hardy and disease-free tree bears enormous crops that do not get overripe or drop. Wonderful shipper. Always in demand at top prices. Shropshire Damson — the best quality, heavy yielding strain.

Apricots

Apricots are quite hardy—about like standard plums. Two or more trees should be planted to provide full pollination.

PERFECTION—This new golden-yellow apricot is the finest variety today. Its size is about like a medium peach and ripens evenly. Flavor is delicate and delicious, melting in sweetness when picked fully ripe from the tree. Tree is unusually hardy, vigorous, productive. It is well named — "Perfection".

America's Finest Roses

Roses are the Queen of Flowers and everyone loves them. Here is our careful selection of what we believe are the best of both old and new to give you a choice of beautiful roses. Our bushes are vigorous growers, full of vitality to give you more and finer flowers—well worth a few cents more. Strong, sturdy, big, field-grown bushes that will bloom this summer. All bush kinds bloom from June to frost.

Treasure Island—(A) Coppery pink. Flaming coppery pink, inside of petals light salmon, orange at base; strong stem. Long pointed buds with flowers large and fragrant. Received highest award of Silver Medal at San Francisco Fair.

Caledonia—(D) Pure white. Large, very double, white beauty. Slightly fragrant, long stemmed flower, long lasting. Bush hardy, good bloomer. One of the finest white roses.

Picture—(B) A newer rose beauty. Velvety, warm pink with under tones of salmon. Very double. Strong, vigorous bush. Truly one of the finest pinks.

Poinsettia—(C) Brilliant Red. A newer red rose not yet generally offered. True, brilliant red, full flowering rose. Strong growing, vigorous bush. A fine, fragrant, rose-red rose.

Price — Above 4 Kinds — Each \$1.00

NEW FLORIBUNDA ROSES

A new type of low growing rose that is covered with a mass of fragrant, daintily shaped blooms from June to frost. Very hardy, strong growers—ideal too, for mass plantings or low borders. Outstanding new roses that you will want.

PINOCCHIO—This dainty little coral and pink rose is a darling in any garden. Tiny, rich salmon "sweetheart" buds flushed with gold at the base and fully opened soft pink flowers edged with deeper pink, cover the plant at the same time. Ideal for cutting.

GOLDILOCKS—Golden yellow gems set in deep rich foliage. Its profusion of dainty, graceful "sweetheart" buds, beautiful as they open—are rich golden yellow, gradually changing to a mass of yellow sunshine when fully opened. An exquisite Floribunda that will be a prize in your garden.

Price—Each **\$1.45**; 3 for **\$3.75**.

Outstanding Climbing Roses

Just think of an arbor, wall or fence covered with a profusion of brilliant Paul's Scarlet or any of these exquisite new better climbers. That would be a real treat.

2-Year Field-Grown, PRICE:
Each 85c; 3 for \$2.35

CLIMBING AMERICAN BEAUTY

—To everyone the name "American Beauty" symbolizes true rose fragrance and soft pink beauty. Here is all the loveliness of this favorite American rose in a free-flowering, hardy, climbing variety.

CLIMBING TALISMAN — The famous, long pointed, orange and copper blooms in a strong growing, free flowering, climbing rose.

CLIMBING PAUL'S SCARLET

One of the best and most brilliant climbers. Large flowers over a long season.

YELLOW PRIMROSE—A new climber. Semi-double flowers of orange-yellow tinted coppery-red; in clusters. Strong growing, profusely blooming plant.

DR. W. VAN FLEET—A gorgeous faint dainty pink climber. Unusually large, 2 to 2½ inch blooms; delicately appealing rose fragrance; stems ideally long for cutting. Very strong, rapid growth; hardy bush is covered with beautiful flowers.

All 2-year first grade bushes, labeled as to variety.
3 for only **\$1.98**; 5 for only **\$3.27**.

Rouge Mallerin-A

This is a red, red rose. Great blooms, 2½ to 3½ inches across. Deep, velvety red buds are long and pointed. Blooms all summer to frost.

Talisman-G

This strikingly colored rose is a favorite with every rose grower. Long pointed orange and copper-red buds open to double, high centered, rose-red and copper blooms. Finest for cutting with long stems and rich fragrance. Bush is free flowering and hardy.

French
Lilacs

Plant World's Best Gorgeous French Lilacs

French Hybrids are something unusual in lilacs. Very fragrant, the clusters are covered with single and double flowerlets, making panicles 8 to 10 inches long. Budded bushes that do not spread from the roots as the old fashioned lilacs do. Use in single plantings, groups or hedges; height is 6 to 8 ft.; plant 5 ft. apart. Usually blooms next year after planting.

Your choice of Lilac-purple, Blue or White—please state color you want. Strong, 2 yr. 18-24 in. plants Each 95c; 3 for \$2.75.

Giant Blue Hydrangea

Imagine great hydrangea blooms in a soft blue color—that is what you have in this striking new shrub. First year growth produces pink flowers; the blue ones come on 2 year old wood. If soil is not acid the blooms are soft pink, and beautiful too. Where needed, aluminum sulphate added to the soil will help maintain the blue color. Provide winter protection from frost.

Carefully grown strong plants, with original soil —Each \$1.25; 3 for \$3.25

Hansen's Bush Cherry

The fruit of this fine ornamental shrub is good to eat. Fruits are large as the average cherry; have a new, delicious flavor; excellent fresh and for jam and jell. White flowers in spring, red and gold foliage in autumn. Hardy everywhere, grows to about 4 to 5 ft.; bears immense crops annually.

PRICE: 2 yr. 18-24 inch —Each 45c; 3 for \$1.25; 6 for \$2.25.

3 yr., Bearing Size — Each 75c; 3 for \$2.10; 6 for \$3.75.

Clematis Jackmani

Intense violet-purple, velvety flowers; many 4 to 6 inches across. Blooms from July to frost and the whole vine is often a mass of striking color. Hardy everywhere and one of the most colorful vines anywhere.

Strong, 2 yr. No. 1 plants— Each 85c; 3 for \$2.25.

Giant
Blue
Hydrangea

Hansen Bush Cherry

Gold Flame HONEYSUCKLE

Blooms all summer. A new brilliant, large flowering honeysuckle vine that is hardy anywhere. Trumpet flowers are rose-red, with throats tinted golden; borne in masses over the vine and very fragrant.

Strong, 2 yr. No. 1 plants—Each 75c; 3 for \$1.95.

Silver Lace Vine

In the late summer and fall this unusual and beautiful vine is covered with a cloud of misty white—tiny white flowers with touches of yellow and rose. Often grows 25 feet in one season. Hardy vine for covering arbors, fences, lattices, etc.

Strong, 2 yr. No. 1 plants—Each 75c; 3 for \$1.95.

YOUR CHOICE
Any 5 Shrubs
Listed Below

All shrubs on this page are not only 2 years old but are 1½ to 2 ft. high. All field grown, heavy, well rooted and branched. They will make a good growth and a fine showing quickly.

BEAUTY BUSH—(*kolkwitzia amabilis*) Famed for its beauty. Covered early in May with a profusion of small, bell-shaped, clear pink blossoms, marked with brownish spots and veins. A tall growing, graceful, hardy bush. **Price**—Each 70c; 3 for \$1.85.

Beauty Bush

DEUTZIA—**Pride of Rochester.** Fills the need for a tall, shapely, attractive shrub for specimen or background planting. Grows to 6 to 8 feet. In May large, double, white flowers—tinted pink—cover the bush. **Price**—Each 48c; 3 for \$1.30.

FLOWERING ALMOND — Upright grower, 3 to 4 ft. Long branches are thickly studded with small double, delicate pink flowers over their full length, before the leaves appear. Blooms in April. **Price**—Each 68c; 3 for \$1.85.

FORSYTHIA INTERMEDIA—**Golden Bell.** Earliest shrub to bloom. Bright yellow flowers seem the spirit of Spring, opening before the leaves appear. Grows to 6 to 8 ft. but may be pruned as desired. Branches slightly drooping. Dark green leaves. **Price**—Each 48c; 3 for \$1.30.

HYDRANGEA P. G.—This showy shrub is perfectly hardy. Large clusters of pure white blossoms, later turning soft pink, from August to late Fall. Superb either singly or in groups; often used as a hedge. **Price**—Each 58c; 3 for \$1.60.

SCARLET FLOWERING QUINCE—Scarlet flowers in April and May. Grows 6 to 8 ft. One of the most attractive spring blooming shrubs; blossoms always large, flowering in great masses just as the leaves are coming out. Foliage a dark glossy green. **Price**—Each 48c; 3 for \$1.30.

MOCK ORANGE VIRGINALIS—A magnificent new variety. Medium height, compact bush. The flowers (single, semi-double and fully double) are the largest and most sweetly fragrant of any variety, with longest early blooming season. **Price**—Each 58c; 3 for \$1.60.

SPIREA VAN HOUTTEI—**Bridal Wreath.** One of the most beautiful and popular of flowering shrubs. In May and June the slender branches droop and form a veritable fountain of snowy white bloom. Thrives anywhere, in shade or sun, wet or dry; grows to 6 to 8 ft. A beautiful ornamental hedge. **Price**—Each 23c; 3 for 65c; 6 for \$1.20; 12 for \$2.25; 25 for \$3.95.

WEIGELA EVA RATHKE—**Crimson.** 3½-4 ft. June flowering. Of smaller growth than the other Weigelas; decidedly spreading. A profusion of flowers brilliant crimson with white throats is its outstanding characteristic. It is especially showy. **Price**—Each 58c; 3 for \$1.60.

Town to Ship Express to

[illegible]

Please Follow "Instructions For Ordering" on Back of This Sheet.

Don't Forget to Include Postage on Mail Shipments.

Instructions for Ordering—Please Read Carefully

LOCATION—Bridgman, Berrien County, Southwestern Michigan—the heart of the “Michigan Fruit Belt” on Lake Michigan. Fast service to Chicago trunk lines east, west, north, south.

EXPRESS SHIPMENTS—Special rates from Bridgman now make express cheapest for all except small orders that go to nearby points. All shipments insured. Rapid handling and safe delivery guaranteed. Generally the best way of shipment. Charges not prepaid.

PARCEL POST SHIPMENTS—See Table Below. Locate the group in which you live and then figure amount of postage to send from table below. Cheaper for small orders. Prompt delivery to your door. If you request mail shipment, but include no postage in your remittance we will ship C. O. D. for exact postage required. If you want mail shipment, be sure to include postage and save the extra C. O. D. and Money Order fees which amount to at least 21c.

SHIPPING SEASON—SPRING—From about March 15th to May 25th, according to season. Fall—October 15th to November 15th.

PACKING—No charge. All plants packed in damp moss or shingle tow. Will keep in good condition 5 days to 2 weeks, according to time of shipment and weather conditions. Each variety carefully separated and correctly labeled.

SUBSTITUTION—Not without your permission except on late orders when time is often saved by substituting var-

ieties of same season and value as those ordered. Satisfaction guaranteed on substitutions.

HOW TO ORDER—Write your name and address plainly on this order blank. Indicate “Mail”, “Express”, or “Our Judgment”, as you prefer. If express shipment, be sure there is an express office at the destination you give. Send remittance. Orders acknowledged.

Please Note—Because of state regulations, we are sorry we cannot ship peach, apricot or plum trees to Ariz., Calif., Idaho, Oregon, Wash.; No cherry to Idaho.

TERMS—Orders of \$5 or less, please send cash with order; if more than \$5.00, you may remit 25 per cent of total with order, balance before shipment if you prefer. If you request, we will make C. O. D. shipments up to May 1st, when 25 per cent of total amount is sent with order; no discount allowed.

REMITTANCE—Postoffice Money Orders are safest. Express Money Orders, Bank Drafts and Checks accepted. If you send Currency register your letter.

REFERENCE—The State Savings Bank, Bridgman, Mich., Express Agent or Postmaster, Bridgman, Mich.

COMPLAINTS—All complaints as to condition on arrival, shortage, or errors must be made within five days after stock is received. This allows ample time to examine shipments and if there is anything wrong, advise at once. Complaints as to condition on arrival must be accompanied by statement from express agent or postmaster, certifying as to extent of damage.

Dazzling Cushion Mums

**Hundreds of Beautiful Blooms from
August to Frost**

These marvelous new type chrysanthemums begin to bloom in August and continue their lovely, brilliant and many colored flowers until late fall and heavy frosts. Literally hundreds of blooms on one plant—a mass of color 2 feet high and 2 or 3 feet across. All this beautiful flower growth comes this first summer from the plants you receive and put out this spring. A hardy perennial that will increase in size and beauty each year. Our plants are all grown from carefully selected, heavy flowering, clear colored, established plants. Plant about 18 to 24 inches apart in any good soil. Ideal for borders, in clumps, or a spot of color wherever you want it.

EARLY JOANNE HELEN

This strikingly beautiful new chrysanthemum is deep rose-red with brilliant golden yellow center. A most unusual coloring. Blooms earlier than most mums. The low growing plant is covered with a mass of richly colored flowers.

**Strong potted plants, with soil on
roots ready to plant and grow
quickly. 70c each; 2 for \$1.25.**

CUSHION MUMS BY COLOR Pink, Bronze, White, Yellow

Excellent, profusely blooming, selected varieties with clear and brilliant colors.
**Strong potted plants, easy to
plant and quick to grow:**

**45c each
All 4 for \$1.39**

NOTE—Cushion mums will be ready for shipment about April 25 to 30. If your order is shipped earlier, we will send them when ready.

Colorful Hardy Phlox

**Specially Selected Plants
That Will Bloom This Summer**

**6 Big Plants
\$1.95**

**One Plant of
Each Variety**

These newer varieties grow more thriftily and bring their profusion of larger, more brilliant, true colors year after year during July, August and September. These big strong plants bloomed last summer in the nursery and will flower freely for you this summer. Pick off faded flowers and seed pods to keep new blooms coming. Plant about 18 inches apart in good garden soil—sunny location preferred. Take this opportunity to get the finest Phlox.

FLASH—Fine new crimson-red. Better than Africa. Large flowers on big heads of bloom. Easy to grow, hardy, healthy plant.

LILLIAN—Delicate cameo-pink with faint blue eye.

CHIEFTAN—Intense dark red. Deepest of all. This striking variety should be in every garden.

CAROLINE VANDENBERG—Most attractive of the lavender shades; a true lavender-blue without any magenta shades.

RHEINLANDER—Deep salmon, rich, beautiful. An old favorite for many years.

MRS. W. G. HARDING—One of the best. A deep rose, faintly flushed with scarlet. Always a fine phlox.

Superior, heavy-rooted, field grown, 2 year plants—ready to bloom. Each 50c

Giant Cultivated Blueberries

Blueberries can be grown satisfactorily on sandy or muck soil that is strongly acid and well supplied with water. Soil not acid can be made so by mixing in acid peat, rotted leaves, or humus.

Ornamental and Enormously Productive

These genuine cultivated Blueberries have been originated and improved by government experiment to produce big yields of giant size, deliciously sweet berries. Berries 3 to 4 times the size of wild kinds. Now every garden can have enough of this healthful fruit for canning and pies—2 to 6 bushes. Two or three varieties to lengthen the season are advised. Ripen from early July to late August. Bushes make a beautiful and useful ornamental shrub.

Blueberries for Market

Cultivated Blueberries for market are profitable, selling retail from 35c to 65c per quart. Berries are firm and ship well. Many new plantings are being made because profits are good.

Bushes last a lifetime and require no unusual care, yields vary from 3 to 9 quarts per bush depending on age. Plant 5 to 7 feet apart. Of the many varieties being offered we have selected the 4 that in our opinion are best, most productive.

RANCOCAS. Early. Hardy, vigorous, productive; very large, firm berries of excellent sweet flavor.

STANLEY. Midseason to Late. Sweet and delicious blueberry flavor. One of the finest and largest. Heavy crops of big, blue-tinted berries borne in clusters. Unusually upright, vigorous, well-shaped bush. Stanley is a newer, most satisfactory sort.

JERSEY. Late. Largest of 10 leading kinds, of fine appearance and average yield. Jersey is one of the best cultivated blueberries. Strong sturdy bushes.

RUBEL. Very late. Hardy, vigorous and very productive, upright grower; large, extra firm berries of good quality. Recommended for commercial use.
